PROFESSIONAL EXPERIENCE

1- Working at KATAMEYA CLINIC HOSPITAL

(I have experience as a clinical pharmacist at KATAMEYA CLINIC HOSPITAL under the supervision of DR. Mohammed Al Naggar pharmacy manager Also he was very recommend me at the beginning.)

2- Preparing a masters degree in clinical pharmacy.

(Iam preparing a masters in clinical pharmacy department at future university under the supervision of DR. Hayam Ateyya (Associate Professor of Clinical Pharmacy FUE Cairo University Diploma of medical education))

3- The duty of my job is to provide continuing education in the hospital and training for students

(My job contributes to my improvement in skills like presentation, time management, continuous education, and keeping up with new developments.)

4- I was a pharmacist at Oxygen Pharmacy and Delmar & Attala pharmacy chain in New Cairo

(It was a long duration of training so it was beneficial to learn the way of communication with different types of patients and patient counseling about all types of drugs)

5- Internship program within the clinical nutrition department at Children's Cancer Hospital Foundation –Egypt

(At this internship I learned the type of nutrition that is suitable for cancer patients and how to calculate the correct amount of each component regarding the patient's weight and chemotherapy protocols)

6- Clinical pharmacy internship course at Children's Cancer Hospital Foundation –Egypt

(This internship was a simulation about the job responsibilities of a clinical pharmacist, I learned tailoring the doses)

7- Teacher's Hospital Internship

(During this Internship, we went to the ICU Department and learned about the patient's files, and how to do a medication reconciliation)
