

# Yomna Ayman Saber

- **Address:** 7st-mohamad Ali Fahmy, Maryotia, Haram, Giza, Cairo
- **Email:** yomna.ayman39@gmail.com
- **Phone Number:** +20 1067092000
- **LinkedIn:** linkedin.com/in/yomna-ayman-02620b199

## Education

- **Aug.2025: Academic Master Program in analytical Chemistry, Misr International University (MIU), Thesis Title:**  
**“Methods for selective determination of active pharmaceutical ingredients”**
- **July 2021: Bachelor Degree in Pharmacy, Faculty of Pharmacy, Ahram Canadian University (ACU), Grade: very good.**

## WORK EXPERIENCE

### Egyptian Chinese University (ECU)

#### Teaching Assistant – Faculty of Pharmacy

March.2026 - present

- Assisted in teaching undergraduate courses in Analytical Chemistry.
- Supervised practical laboratory sessions and guided students during experiments.
- Prepared and standardized chemical reagents and solutions.
- Supported students in understanding analytical techniques such as titration and instrumental analysis.
- Assisted in grading assignments, quizzes, and lab reports.

### Gustave Roussy Cancer Hospital, Cairo, Egypt

June.2025- March.2026

#### Supply chain Pharmacist – Receiving Office, Drug Warehouse

- Received and processed all incoming pharmaceutical supplies.
- Prepared inspection and addition permit for received medications.
- Maintained and updated tracking sheets to document incoming drugs.
- Reviewed pending deliveries and reconciled totals with actual received quantities.
- Prepared financial sheets to support accounting and budget control.

### Dar El Salam Cancer Hospital, Cairo, Egypt

July.2024- June 2025

#### Supply chain Pharmacist

- Receive and supervise incoming medical products and ensure the quality and standards of these products and supplies according to regulatory requirements.
- Ensure the warehouse temperature levels are set appropriately by keeping a daily track.
- Keep stock control systems current, and plan future capacity requirements.
- Manage and ensure the rejected, damaged, and expired stock is disposed of, per the waste disposal process.

### Sedico Pharmaceutical Company, Cairo, Egypt

July. 2023- July.2024

#### Stability Specialist

- Analyze stability samples and prepare stability reports.
- Perform Instrumental analysis for Finished Products.
- Perform Physical inspection of different Pharmaceutical Products.
- Analyze the accelerated stability testing of R&D pilot batches.

**Sigmatec Pharmaceutical Company, Cairo, Egypt**

**July 2022 – July 2023**

**Methodology and Validation Specialist**

- Follow up on developing the method of analysis of new drug molecules suitable for routine work of the Quality control department.
- Develop stability-indicating assay methods for pharmaceutical products.
- Validate all the developed methods of analysis.
- Solve any problems encountered in all the developed methods of analysis during routine work of the QC department.

**Chemical Industries Development (CID), Cairo, Egypt**

**April 2022- July 2022**

**Formulation Pharmacist**

- Implement the designated formulation by carrying out a series of experiments with the ability to correlate results for sequencing trials.
- Conduct the necessary research on the possibility of adding new products to the company.
- Preparation of experiments on the production process and ensure the experiment's success and its conformity to the reference of the Ministry.
- Prepare the Pilot Batch with the approval of the health inspector
- Solve Problems Related to Troubleshooting

## INTERNSHIPS & TRAINING

- **Training in The Nile for the pharmaceutical & Chemical industry** (10/2020-11/2020)
- **Internship Program in Hikma Pharma CO.**  
**Training in Production, Quality Control Departments** (08/2018 - 11/2018)
- **Internship Program in Hikma Pharma CO.**  
**Training in Production and Quality Control Departments.** (08/2017)
- **Clinical Pharmacy Training Program from Zewail City.** (02/2021 - 02/2022)
- **Patient-Centered Communication course from Children's Cancer Hospital Egypt 57375 In collaboration with Skaggs School of Pharmacy University of Colorado.** (10 Aug 2020 to 21 Aug 2020)
- **Operating Room pharmacy course from Children's Cancer Hospital Egypt 57357**  
(31 January 2020 to 15 February 2020)
- **English courses from AUC and Berlitz.**

## Publications

Saber, Y. A., Hamed, M., Emara, S., Mansour, F. R., Locatelli, M., & Ibrahim, N. (2024), "Garlic peel-based carbon quantum dots as a sustainable alternative for the sensitive and green spectrofluorometric quantification of molnupiravir in pharmaceutical capsules", **Heliyon Journal**, Vol.10, No.23.

### Skills

**Research Skills**  
**communication skills**  
**Problem Solving**  
**Multitasking**

### Language

**Arabic – Native**  
**English – Excellent**
