Cairo, Egypt

Objective

A highly motivated and academically driven pharmacy graduate with a strong passion for scientific research, teaching and continuous learning. Possessing a solid foundation in pharmaceutical sciences and hands-on research experience gained through academic projects. Eager to pursue an academic career as a teaching assistant contributing to both education and research while inspiring students and advancing scientific knowledge through dedication, critical thinking and innovation.

Work Experience

Teaching Assistant, Department of Pharmaceutical Chemistry, Faculty of Pharmacy & Drug Technology, Egyptian Chinese University (ECU) **2026-Till Now**

Pharmacist, Armed Forces Hospital in Elmaadi **2025-2026**

Worked as full-time hospital and community pharmacist. Dispensing medications accurately according to prescriptions and hospital policies, reviewing prescriptions to ensure safe and appropriate medication use and Providing medication counseling and pharmaceutical care to patients.

Education

Bachelor of pharmacy, Faculty of Pharmacy & Drug Technology, Egyptian Chinese University (ECU), Cairo, Egypt **2020-2025**

CGPA 3.83

Ahmed Zewail Language School, Cairo **2017-2020**

Research Experience

Development and Validation of a UV Spectrophotometric Method for Determination of Linagliptin Tablets with Forced Degradation and Dissolution Studies. **2026**

Graduation Research Project | Grade A+

Developed and validated an ICH- Compliant UV Spectrophotometric method for the analysis of linagliptin tablets including method validation, forced degradation and dissolution studies to assess analytical performance and drug stability.

This Project Strengthened my research skills in laboratory techniques, critical thinking, scientific writing, presenting scientific results and independently operated the UV-Spectrophotometer for sample analysis and interpret analytical results while developing practical skills in analytical method validation.

Trainings & Achievements

Awarded as best member in PM Department in Jade Natural Cosmetics Club (JNC) at ECU University

2024

Awarded as Best Board Member in OPM Department in Nutri Lifestyle Club at ECU University

2024

Trainee at Arab Drug Company industry (ADCO)

Received practical training in the Quality Control and Microbiology Laboratories, assisted in routine analytical and microbiological testing and learned laboratory documentation practices and GMP requirements.

2024

Trainee as Community Pharmacist at MISR Pharmacy
